The Massachusetts Department of Environmental Protection (DEP) enforces the state's environmental laws.

207 Enforcement actions were issued to retailers.

$13,500 Total fines issued to retailers.

HIGHLIGHTS

Between July 1, 2016 and December 31, 2016, 207 enforcement actions filed by the Massachusetts Department of Environmental Protection (DEP) were issued to 207 retail facilities. These included automotive stores, dry cleaners, gas stations, grocery stores, and motor vehicle dealers. Massachusetts does not make inspection reports publicly available.

Fines ranged from $500 to $1,000, in addition to actions required to bring the entities into compliance. The highest fines were issued to gas stations and a dry cleaner.

The types of retail stores facing enforcement.

- Automotive stores 7
- Dry cleaners 6
- Gas stations 187
- Grocery stores 3
- Motor vehicle dealers 4

| **Air**          | Automotive store      | Notice of Noncompliance (NON)¹    | Failure to:
• Have Certification of Financial Responsibility available               | Essex    | 1                    | Retailer was required to:
• Submit a Stage II Decommissioning Notification                               |
|                  | Motor vehicle dealer  | NON                               | Failure to:
• Submit a Stage II Form D1, Annual In-Use Compliance Certification       | Middlesex| 1                    | Retailer was required to:
• Submit a Stage II Form D1 Annual In-Use Compliance Certification; or
• Submit a Stage II System Decommissioning Notification                         |
|                  | Dry cleaners          | NONs Reporting Penalty Assessment Notice (RPAN)¹ | Failure to:
• Maintain receipts of perchloroethylene purchases
• Monitor the system high and low pressures
• Obtain a Limited Plan Approval before installation and operation
• Perform leak detection
• Submit Dry Cleaner Compliance Certification                                  | Bristol  | 1                    | $1,000 fine for one retailer.
Retailers were required to:
• Inspect for leaks
• Maintain a log of dates showing when leak detection was conducted
• Maintain perchloroethylene purchase receipts
• Monitor system high and low pressures
• Submit a Limited Plan Application                                               |
|                  |                       |                                   |                                                                           | Norfolk  | 1                    |                                                                                               |
|                  |                       |                                   |                                                                           | Plymouth | 1                    |                                                                                               |
|                  |                       |                                   |                                                                           | Worcester| 1                    |                                                                                               |

*Air* Violations covered an automotive store, dry cleaners, gas stations, and a motor vehicle dealer. Violations included failure to have a Certification of Financial Responsibility available, failure to perform leak detection, and failure to submit compliance certifications.

1 See Glossary for details
**GLOSSARY**

**Notice of Noncompliance (NON)** — a document that describes the entity’s violations, the regulations the entity failed to comply with, and specifies requirements for the entity to come into compliance.

**Reporting Penalty Assessment Notice (RPAN)** — a document that includes the entity’s alleged violation(s), the law or regulation that the entity failed to comply with, requirements to come into compliance, and a penalty fine amount assessed by the DEP for the alleged violation(s).

Documents concerning state enforcement actions on retail entities are obtained by contacting the state’s environmental regulatory agency directly by email and by phone, submitting Freedom of Information Act (FOIA) requests, or using online document databases. The search is refined using retail-specific criteria, such as titles and address locations of the entities, Standard Industrial Classification (SIC), or North American Industry Classification System (NAICS) codes and descriptions. Enforcement actions involving non-retailers are excluded from the data analysis and summaries.

**Retail** — stores that sell goods or services to customers, typically in small quantities, for consumption or use. Retail stores can include: automotive parts and new/used tire sales, convenience stores, gas stations, distribution centers, dry cleaners, pharmacies, rental stores, sports/hunting goods stores, and variety stores.

Retail-specific state enforcement documents and data are analyzed to determine trends including: the most frequent violations, what the most common media types violations are (such as air, petroleum contamination, waste, or water), and where the retailers who were issued enforcement actions are located. Data is collected and trends are analyzed on a biannual basis.

Note that some retailers received more than one enforcement action across one or more enforcement areas.
